

FOR IMMEDIATE RELEASE

NEW STEAM HEATER REVOLUTIONIZES THE HOT WATER MARKET

Waukesha, WI (June 1, 2005) – Hydro-Thermal Corporation, the leading manufacturer of engineered liquid heating solutions, announces the launch of **EZ Heater**. The EZ Heater is a direct steam injection heater that is used in any process where instantaneous hot water is required. The EZ Heater is a perfect solution where a heat exchanger was utilized in the past.

The **EZ Heater** will reduce energy expenses due to its 100% energy efficient design. The EZ Heater eliminates plugging and fouling issues often experienced with heat exchanges. The EZ Heater will also reduce overall maintenance expenses due to its self-cleaning functions and durable product design. Each EZ Heater is customized to meet the user's exact requirements. The EZ Heater is available to accommodate flow ranges up to 600 gpm. The heater can also reach temperatures up to 350° F with the ability to produce up to a 250° temperature rise.

“The company has spent the last 12 months perfecting the EZ Heater and testing it in industrial, food, chemical, pulp and paper and concrete manufacturing facilities across the country,” stated Gary Zaiser, CEO of Hydro-Thermal Corporation. “This product rounds out our direct steam heater lines allowing us to service and heat any type of water or viscous liquid requirements. This product builds upon our years of experience providing direct steam injection solutions.”

About Hydro-Thermal Corporation:

With technology and engineered products dating back to the 1930's, Hydro-Thermal Corporation has been satisfying customers with their knowledge and expertise in direct steam injection heating solutions. Over the years, Hydro-Thermal Corporation has adapted that technology and expertise to serve customers in the pulp and paper, chemical, textile, pharmaceutical, food processing, biotech, grain milling, petrochemical and water treatment industries. Hydro-Thermal Corporation offers engineered solutions for every liquid heating application. From start to finish, Hydro-Thermal Corporation is there to meet all of your needs.
